

# The Transmitter

Dallas R/C Club Monthly Newsletter — September 2026

## Club Operations & Financial Status

- **Treasury Report:** Wes reported a healthy total balance of **\$4,206.90**, consisting of **\$3,701.18** in the bank and **\$501.72** in PayPal. The club maintains an automatic monthly payout of \$40 to John via bill pay.

Dallas R/C meeting - 202...

- **City Lease Negotiations:** Discussions were held regarding the 2027 flying field lease agreement. A follow-up email has been sent to David Smith to secure terms ahead of January renewals, as members navigate ongoing communication delays.

Dallas R/C meeting - 202...

- **Officer Elections:** Reminder that the club will hold its **election of club officers** during the next monthly meeting.

Dallas R/C meeting - 202...

## Field Maintenance & Weather Advisory

- **Seasonal Conditions:** Extremely dry ground and high summer temperatures exceeding 100°F have restricted outdoor flying sessions mostly to the early mornings. Routine mowing and trimming are largely wrapped up for the season.

Dallas R/C meeting - 202...

- **Infrastructure Updates:** Facility awnings require minor repair work.

Dallas R/C meeting - 202...

## Upcoming Events

- **Rockwall Fun Fly Fundraiser:** Mark your calendars for the upcoming fun fly fundraiser hosted in Rockwall on **Saturday, September 26**, featuring a \$20 pilot entry fee.

Dallas R/C meeting - 202...

## Tech Talk: Radio Gear & FPV Best Practices

- **Video Interference:** Recent sessions highlighted potential video signal interference caused by DJI goggles operating on auto-channel selection alongside high-power VTX transmitters, which can force other pilots onto their return-to-home features. Pilots are encouraged to manage channels carefully.

Dallas R/C meeting - 202...

- **Equipment & Pricing:** Members compared radio control setups, discussing cost-effective receiver options from RadioMaster and FrSky, as well as advanced configurations like Express LRS, Crossfire modules, and Sbus receivers. Wes also

shared details on exploring the RadioMaster TX15 featuring dual 2.4 Gemini transmission and Express LRS support.
